

## Lighthouse Point Dental Office

The team at Florida Smiles Dental values your time. We strive for efficiency and are proud to be a part of the most well organized practice of dentists in Pompano Beach. To simplify your visit, we use electronic charting to maintain patient profiles. This lets us access your patient information in the operatory as well as at the front desk so that we can ensure important information is shared correctly, and nothing is misinterpreted. Plus, this system improves productivity and reduces our paper dependency.

Please call today to schedule your dental appointment at Florida Smiles Dental in Lighthouse Point. We regularly treat patients from Fort Lauderdale, Pompano Beach, Weston, Hollywood, and the surrounding South Florida communities.

## Invisalign Lighthouse Point

If you're an adult seeking an orthodontic solution, you've most likely been considering your options for some time. For many adults, traditional braces are not an option, and you may feel that the lack of alternatives maybe the reason why you have put off correcting your smile up until now. Fortunately, Invisalign aligners are made of a thermoplastic material that is virtually invisible. You will be please to learn how many people won't even notice that you're using Invisalign to improve your smile. Because the aligner is made of this revolutionary clear plastic material, it is hardly visible when worn. Our patients feel far less self-conscious about how they look, and end up smiling a whole lot more when wearing Invisalign aligners. Orthodontic treatments vary, and to find out which one is best for you, schedule your consultation with Florida Smiles Dental, the leading dentist in Lighthouse Point.
